

## English

We will be sequencing sentences to write for different purposes, reading our writing to check that it makes sense. We will also be looking at our handwriting, understanding which 'families' letters belong to (i.e. letters which are formed in similar ways) and practising these.

Phase 5 Phonics will continue every afternoon looking at alternative spellings for different sounds such as /ch/ (chain, future), preparing for the screening in week 2. In phonics we will also continue to be looking at our tricky words, such as 'little' and 'people' and practising them both in school and as homework.

## Science

This term we will be looking at investigative processes. We will be observing experiments closely, using equipment and performing simple tests. We will also be gathering and recording data to help in answering questions.

## Creative Arts

This term we will be linking art to our topic. We will be exploring press printing, rubbing and stamps to make prints. We will also be experimenting with overprinting motifs and colour. We will also be looking at water colour to create some under the sea scenery.

## Religious Education

This term we will be focusing on the Gospel, focusing on stories about Jesus.

## PSHE

This term we will continue to be focusing on relationships, looking at our relationships with ourselves, friends, families and peers.

## Under the Sea Year 1 Term 6

## Physical Education

We will be continuing focussing on athletics, in preparation for sports day!

## Mathematics

We will be revisiting shapes, looking at position and direction and creating patterns. We will also be revisiting number and place value, looking at numbers up to 100! To end our term, we will be learning about time and money, telling the time and learning how to count change!

## Humanities—Geography

This term we will be looking at animals from each ocean, learning about the different continents and the world around us.

## Computing

We will be using computing cross-curricular in our topic learning. We will be using Microsoft Word to manipulate text and pictures, designing fact files about animals that live under the sea.
