

# Art Newsletter

Term 5, Week 6 2020

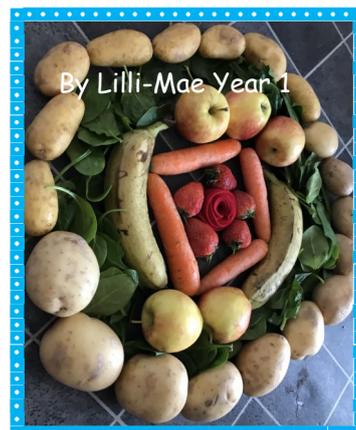

Hello everyone,

WOW....what a creative bunch you all are. Your land art designs are full of imagination, each one unique and beautiful, you should all be incredibly proud of yourselves. Remember you can make land art anytime (always check with grown ups first). It's a brilliant way to create colourful patterns and shapes, you can experiment with so many different materials. There are wonderful shapes and colours all around us and you can use the things you notice to inspire your next creation. I am often inspired by other people's work, maybe you will notice something from the Art Gallery below that you want to have ago at creating yourself. Thank you so much for sending all your wonderful photos, I wish I could have included them all. I look forward to seeing your next creations.

HAPPY EASTER and have a great half term. Miss French

## A message from Mrs Wintle:

Hi Everyone,

Mrs Wintle here,

I just wanted to say 'Hi' and hope you are enjoying your online Art lessons. I gather from Miss French that you are doing a piece of work on recycled plastics. I thought you would like to see these lovely recycled plastic birds which are made from milk bottles. Have a go. You might need to try a few times before you get it to work. You need to cut up the back of the bottle with sharp scissors so it may be best for an adult to help you. Make sure you cut a long pointed beak near the rim of the bottle and push it through to make the beak.

Take care and keep being creative x
